Snappable junk fences

Darthwayne mod has done for 4 fallout which allows those unwanted fences to be biting. One of the main issues for me with these fences is that you can't put them close enough together to actually create a wall. If Darthwayne uses this forum and sees this, it would be great if he was able to make this mod for PS4. I know they're still going through an edited list update for PS4, but I just thought I'd make a request. There's no 'they' in terms of an edit update for PS4 - it's just individual authors that are working on modifying and regarding unwanted fences pickup - sorry but not possible, adding snap points (which this mod does) requires external assets to work (since you have to create new files to identify snap points etc in an external program) so it can't be done on PS4. I'm afraid you'll just need to keep using the rug/column bugs to put these (if you don't know how to do this check out the norespawns on YouTube - it has an amazing building without edited videos that show how to use glitches to get a lot of things you can't normally do). When I told them, I meant Bethesda by making the user modify and making sure they're acceptable to agree with Sony. Bummer, didn't realize that it was foreign mod asset and I'm not modder so I have no idea how to do it. Thanks for the response though. Bethesda already has to do it - when you download the Mod. If the PS4 had other assets, you would get a warning and they wouldn't load those assets. Oh, okay. As modder I am ignorant. Either way it doesn't look like I'll be able to get this mod. Thanks for the information! You don't seem to understand what external assets mean. In: Incomplete Infobox (Fallout 4), Fall 4 Objects settle editing the infobox template in this article missing some required data. You can help Nukapedia by filling it in.

Walls000C387F0000CE9400C389500CE94000000C3897Curve000CE93001B4ACWorld Objects001D15DF 0011D15E101D15E3001D15E15E5 unwanted fence, unwanted fence curve, unwanted fence angle, unwanted fence entrance and gate are settling objects in fallout 4. The characteristics of unwanted fences are fences made of scrap materials such as rusty metal, planks and car tires. Unwanted fences are the only type of fence that is not attracted to itself, which may be a challenge to establish borders in settlements. Drafting [editing | Editing of a source] there are unwanted fences under the structures - fences in the workshop. Materials Requirements: Produced: Materials: Requirements: Produced: Notes [Editing | Towers often shoot through unwanted fences in order to damage enemies.
